

**Company:** Vortex Connect  
**Job Title:** Front End Developer  
**Department:** Product Development  
**Job Location:** 411 Richmond St., Toronto, ON

---

**Vortex Connect** develops mobile business solutions. We build Real, Useful, Business apps for Blackberry, iPhone, Android, Pre and more. Our mobile business apps focus on solving real-world business problems rather than building games or diversions. We've been successful in building applications for Police Forces, Hospitals, Restaurants, and Stadiums. If you're interested in joining a smart, friendly, agile team that builds solutions to make a difference, join Vortex Connect.

**RESPONSIBILITIES INCLUDE:**

- 🌀 Developing customer friendly user interfaces that deliver an unmatched user experience, consistent across multiple browsers
- 🌀 Building HTML, Javascript, and CSS resources for desktop web applications
- 🌀 Ensuring a high level of quality in all deliveries

**QUALIFICATIONS:**

- 🌀 Understanding of browser capabilities and design constraints on the web, with expertise in developing and testing across multiple browsers and platforms
- 🌀 Experience using popular Javascript libraries (MooTools, jQuery) as well as vanilla JS
- 🌀 Experience writing efficient and semantic HTML and CSS layouts
- 🌀 Strong understanding of modern front end techniques (Sprites, CSS-P, Unobtrusive JS)
- 🌀 Knowledge of DOM manipulation and AJAX/JSON/XML protocols
- 🌀 Proficiency with Adobe Photoshop and image optimization techniques
- 🌀 Strong understanding and experience with object-oriented design and development
- 🌀 Knowledge of HTML5 is a great asset
- 🌀 Familiarity with BlackBerry, iPhone, and Android mobile devices is a great asset
- 🌀 Passion for new technology
- 🌀 Ability to think outside the box and always looking for different ways to solve problems
- 🌀 Excellent written and oral communication skills
- 🌀 Ping pong skills are a great asset

**BENEFITS:**

- 🌀 Downtown Toronto location
- 🌀 Fast-paced startup environment
- 🌀 Work with an experienced, friendly team. Our team includes former employees of Microsoft, ATI/AMD, RIM, Rogers, Workbrain and more
- 🌀 It's a fantastic place to contribute, learn and have fun.
