

Android Developer

Vortex Connect • 411 Richmond St. E., Toronto, ON

Vortex Connect is an innovative, industry leading team, committed to leveraging mobility to enhance workforce and operational management. We are passionate about building the best mobile applications to strengthen business-to-employee (B2E) communications. We build real, useful, business applications for the latest iPhone/iPad, Android, and Blackberry devices (yes, we have all the toys in-house!). Among our satisfied customers are hospitals, police forces, restaurants, and stadiums, both here in Canada and globally.

We move at a brisk pace in our cool converted loft space in downtown Toronto. Our start-up environment is a fantastic place to contribute, learn, and have fun. We have an experienced team including former employees of Microsoft, RIM, Rogers, Workbrain, and more.

If you're interested in taking your career to new heights along with a team of smart, friendly, and agile professionals, come and join us at Vortex Connect. We offer a competitive salary, health and dental benefits, and flexible hours.

WHAT YOU'LL BE DOING:

- 🌀 Building market leading Android applications, delivering an unparalleled user experience
- 🌀 Contributing to the entire product lifecycle from design through deployment
- 🌀 Working with various in house and client teams to ensure successful delivery
- 🌀 Ensuring a high level of quality in customer deliveries

WHAT YOU'LL BRING:

- 🌀 Strong understanding and experience with object-oriented design and development
- 🌀 3+ years hands on Java and/or Android experience in a professional environment
- 🌀 Passion for new technology and interest in the newest mobile devices in market
- 🌀 Source code control understanding (experience with SVN preferred)
- 🌀 Ability to think outside the box and always looking for different ways to solve problems
- 🌀 Self-motivated, well-organized, creative and analytical in approach
- 🌀 Excellent written and oral communication skills

NICE TO HAVE:

- 🌀 Familiarity with iPhone, Blackberry, Windows Mobile development is a great asset
- 🌀 Experience with C# .NET, JSON, XML
- 🌀 Working experience with Microsoft SQL Server
- 🌀 Ping pong skills
